

Chapter 15 - Practice Set

- 1 Create an ArrayList and store names of 10 students inside it. Print it using a for-each loop
- 2 Use the Date class in Java to print time in the following format:

21:47:02
- 3 Repeat 2 using the calendar class
- 4 Repeat 2 using the java.time API.
- 5 Create a Set in Java. Try to store duplicate elements inside this Set and verify that only one instance is stored.
